Prediction range · Frayer & doodle notes

Name _____ Partner _____

SECTION A BUILD THE WORD

Focus word **Prediction range**

From Section A: Starting position, Displacement, Final position, Prediction range. For a different word, use the second box to explain how you recognize it.

Meaning in my words Explain it without using the term.	**How can you tell?** If the forecast is 10 ± 2 km, which positions does it allow?
Example or sketch Draw and label a case that fits.	**Non-example and why** Show a near miss. What rules it out?

SECTION B DOODLE THE IDEA

Mark the central forecast and shade its interval. Label one reason the interval could grow.

Choose zero, direction, and scale.

My marks mean _____

On assignment: Prediction range

SECTION E / BACK / FINAL MEETING ONLY Name _____

Two XJ teams predict a center of 20 km. Team A gives ±1 km; team B gives ±4 km. A telescope has one narrow field.

PICK A JOB / DELIVER ONE PRODUCT

☐ **Survey engineer**

Draw both possible bands on one axis. Recommend which report requires a wider search; give both sets of endpoints.

☐ **Weather-desk presenter**

Produce a forecast graphic with two bands. Explain to a viewer which search is wider and what the graphic cannot tell us about impact.

One partner makes the graphic; one delivers the first call. Show your evidence to the crew or the audience.

OUR GRAPHIC / COMMAND OR ON-AIR CUE

INCOMING UPDATE / WAIT FOR YOUR TEACHER

Listen to the new report. Switch speakers. Keep or change your call; point to the new evidence.
