Net force · Frayer & doodle notes

Name _____ Partner _____

SECTION A BUILD THE WORD

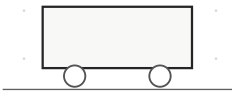

Focus word **Net force**

From Section A: Net force, Newton's second law, Direction, Balanced. For a different word, use the second box to explain how you recognize it.

Meaning in my words Explain it without using the term.	**How can you tell?** A cart feels 12 N right and 4 N left. Which way is the overall push? How big is it?
Example or sketch Draw and label a case that fits.	**Non-example and why** Show a near miss. What rules it out?

SECTION B DOODLE THE IDEA

Draw an object with two opposing forces. Write the signed sum under the net arrow.

My marks mean _____

On assignment: Net force

SECTION E / BACK / FINAL MEETING ONLY Name _____

A tracking model moves left. Its 4 kg body feels 12 N right and 4 N left. The status display has separate motion and force arrows.

PICK A JOB / DELIVER ONE PRODUCT

☐ **Controls engineer**

Set the net-force and acceleration arrows. Tell the operator what happens to speed at first while velocity points left.

☐ **Replay analyst**

Annotate the slow-motion clip with one arrow for motion and another for acceleration. Explain why they can point opposite ways.

One partner makes the graphic; one delivers the first call. Show your evidence to the crew or the audience.

OUR GRAPHIC / COMMAND OR ON-AIR CUE

INCOMING UPDATE / WAIT FOR YOUR TEACHER

Listen to the new report. Switch speakers. Keep or change your call; point to the new evidence.
