Reference point · Frayer & doodle notes

Name _____ Partner _____

SECTION A BUILD THE WORD

Focus word **Reference point**

From Section A: Reference point, Known quantity, Model assumption, Range. For a different word, use the second box to explain how you recognize it.

Meaning in my words Explain it without using the term.	**How can you tell?** A sign says “5 m east.” From where are those five meters measured?
Example or sketch Draw and label a case that fits.	**Non-example and why** Show a near miss. What rules it out?

SECTION B DOODLE THE IDEA

Sketch the reference frame and one sideways component. Box your time unit and one model assumption.

My marks mean _____

On assignment: Reference point

SECTION E / BACK / FINAL MEETING ONLY Name _____

Two observatories file the same sighting: “5 km right of station A” and “2 km left of station B.” B is 7 km right of A.

PICK A JOB / DELIVER ONE PRODUCT

☐ **Survey engineer**

Put both stations on one axis. Give dispatch one position in A’s frame, then list what else a future prediction needs.

☐ **Map broadcaster**

Make an on-air locator map. Convince the producer whether the two reports disagree by showing both zeros.

One partner makes the graphic; one delivers the first call. Show your evidence to the crew or the audience.

OUR GRAPHIC / COMMAND OR ON-AIR CUE

INCOMING UPDATE / WAIT FOR YOUR TEACHER

Listen to the new report. Switch speakers. Keep or change your call; point to the new evidence.
