Say it, then write it: who pushes?

Language goal: I can **name** who exerts a force.

gravity
gravedad · gravidade
Earth pulls down

normal force
fuerza normal · força normal
a surface pushes out

tension
tensión · tração
a rope pulls

friction
fricción · atrito
rubbing that resists sliding

English · Spanish · Portuguese. My home language: _____

1 · READ AND FILL · WORD BANK: Earth · table · rope · floor · newtons

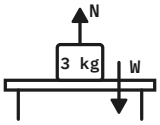

Gravity on the box comes from ____. The normal force comes from the ____. Tension comes from the ____. Friction comes from the ____. We measure every force in ____.

2 · SAY IT TO A PARTNER, THEN WRITE IT

The ____ exerts a ____ force on the box.
The force points ____ because ____ .

3 · SOLVE WITH THE STEPS

A 3 kg box sits on a table. Use g ≈ 10 N/kg.

STEP 1 · WEIGHT
F_g = ____ × ____ = ____ N

STEP 2 · SUPPORT
normal force = ____ N, pointing ____

STEP 3 · SAY IT
"Earth pulls ____ N down; the table pushes ____ N up."

4 · EXPLAIN IT · CHOOSE A FRAME

☐ Every force has a source. The source of ____ is ____ .
☐ "The force of motion" is not a force because ____ .
☐ First I name the ____, then I draw the ____ .

I said it ☐ · I wrote it ☐

K2 (1) (2) (3)

UNIT 1 COLOR CODE ☐ green speeding up ☐ red slowing down ☐ yellow steady · balanced ☐ blue position · displacement ☐ purple velocity ☐ orange forces pencil · everything else

Mass and weight

10 H

DIRECTIONS · Fill all four boxes for each term.

Mass

DEFINITION · MY WORDS

UNITS + TOOL

unit ____ · measured with ____

EXAMPLES

DOES IT CHANGE ON THE MOON?

Weight

DEFINITION · MY WORDS

FORMULA

F_g = ____ × ____

EXAMPLE CALCULATION

MASS vs. WEIGHT MIX-UP

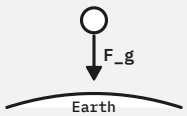

One sentence using both terms: _____

K2 1 2 3

UNIT 1 COLOR CODE ☐ green speeding up ☐ red slowing down ☐ yellow steady · balanced ☐ blue position · displacement ☐ purple velocity ☐ orange forces pencil · everything else

Picture dictionary: five forces

Language goal: I can **name** who exerts a force.

↓ Earth

gravity F_g

gravedad · gravidade

Earth pulls down

my language: _____

use it: _____

↑ surface

normal F_N

fuerza normal · força normal

a surface pushes ⊥

my language: _____

use it: _____

← rub

friction f

fricción · atrito

along the surface, opposes slip

my language: _____

use it: _____

rope →

tension T

tensión · tração

a rope or string pulls

my language: _____

use it: _____

hand →

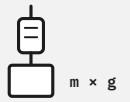

applied

fuerza aplicada · força aplicada

a push or pull you give

my language: _____

use it: _____

m × g

weight

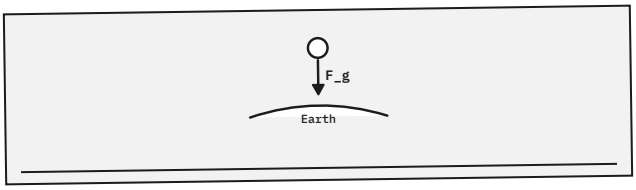

peso · peso

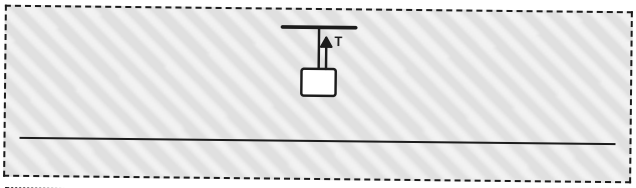

gravity force in newtons

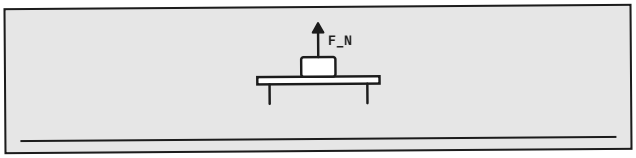

my language: _____

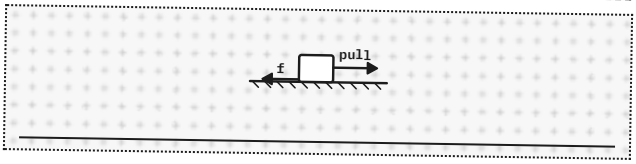

use it: _____

MATCH · WRITE THE WORD FOR EACH PICTURE

I can point and say all 6 words to a partner □

10 T

Who pushed the crate?

A crate slid across the stockroom floor. Name every force — and who exerted it.

EXHIBIT A · THE SCENE

A 20 kg crate is pulled right by a rope with 60 N. The floor is rough. It slides right. Use g ≈ 10 N/kg.

Source: rope → ____

Source: floor (up) → ____

Source: floor (along) → ____

Source: Earth → ____

ANALYSIS 1 · WEIGHT

$F_g = m \times g =$ ____ N, pointing ____

ANALYSIS 2 · SUPPORT

The normal force is ____ N because ____

EXHIBIT B · DRAW THE CRATE'S FORCES (dot + labeled arrows)

WITNESS · TRUE OR FALSE?

"After the rope snapped, the rope's force kept the crate sliding for a second."

THE VERDICT

Every force on the crate came from ____. When contact ends, ____

UNIT 1 · DAY 10 · K2 · LOOP CHAIN

I have... who has? Forces

10 G

DIRECTIONS · Start at ★. Solve, find the tile that "has" your answer, and keep going.

★ START — **A**

WHO HAS…

Weight of a 3 kg book (g ≈ 10 N/kg)?

I have **tension** — **B**

WHO HAS…

Mass is measured in…?

I have **normal force** — **C**

WHO HAS…

Weight of a 5 kg box with g = 9.8?

I have **friction** — **D**

WHO HAS…

A force that acts without touching?

I have **30 N** — **E**

WHO HAS…

The force a table pushes up with?

I have **gravity** — **F**

WHO HAS…

Is "the force of motion" a real force?

I have **49 N** — **G**

WHO HAS…

A rope's pull is called…?

I have **kilograms** — **H**

WHO HAS…

The force that opposes sliding?

I have **no — not an interaction** — **I**

END

MY PATH: A → ___ → ___ → ___ → ___ → ___ → ___ → ___ → END

K2 1 2 3

UNIT 1 COLOR CODE ☐ green speeding up ☐ red slowing down ☐ yellow steady · balanced ☐ blue position · displacement ☐ purple velocity ☐ orange forces pencil · everything else

Contact, non-contact, or not a force?

10 N

DIRECTIONS · Write each card's letter in its column.

A the table's normal force	**B** Earth's gravity on a book	**C** the rope's tension	**D** velocity of a cart
E friction from the floor	**F** your hand's applied push	**G** mass of 3 kg	**H** gravity on 2026-XJ from the Sun
I air resistance	**J** "the force of motion"	**K** a magnet pulling a paperclip	**L** acceleration

CONTACT FORCE	NON-CONTACT FORCE	NOT A FORCE
needs touching	acts at a distance	a quantity, not a push/pull

EXPLAIN ONE TRICKY CARD

Card ____ belongs where it does because _____

K2 1 2 3

UNIT 1 COLOR CODE ☐ green speeding up ☐ red slowing down ☐ yellow steady · balanced ☐ blue position · displacement ☐ purple velocity ☐ orange forces pencil · everything else
